

A Tale of Two Genocides: USA's Hypocrisy

The United States frets about Israel – which is surrounded by Muslim nations which have had a history of trying to exterminate it. Yet Americans don't seem to care [or know] about the first Christian nation Armenia, which is also surrounded by unfriendly Muslim nations that want to wipe it off the map...

Shamefully, the United States doesn't even recognise the genocide of 1.5 million Armenian Christians, and neither does Israel – because the barbaric slaughter of Armenians from their ancestral homeland was done by a so-called 'ally' of the United States: the Turks (people from Azerbaijan are also Turkic people).

In fact, Hitler was known to have been inspired by the fact the world turned a blind eye to the Armenian genocide and Germany's complicity during WWI, to perpetrate his own genocide in WWII. So do Americans care more about 'strategic alliances' and blood money than the lives of millions of humans?

Victims: 2,200,000 – 2,800,000 Christian Armenians, Assyrians, and Greeks

Perpetrators: Turk, Kurd and Chechen Muslims (Ottoman Empire leaders were protected by ally Germany, which did nothing to stop the genocide)

Muslim leaders: Talaat Pasha (the 'Turkish Hitler'), Enver Pasha, Djemal Pasha, Nazim Efendi; (all sentenced to death for crimes against humanity by an Ottoman Turk Courts-Martial on 5 July 1919, but fled to Germany)

Recognised by: 30 nations including Ottoman Turk allies Austria and Germany, and NZ Gallipoli Allies Canada, France and Russia, and the Pope

Shamefully denied by: Turkey and Turkish ally Azerbaijan, and not formally recognized by the **USA** (but 49 U.S. States recognize), and shamefully not recognized by **Israel**, which today militarily supports Turkey and Azerbaijan

Theft: 2,549 churches and all Armenian land, an estimated US\$3.7 billion (1919) just from the Church. Instead of returning the blood money, the UK and France sold it for **U. S. Treasury Certificates** via J.P. Morgan Bank

Reparation: by Turkey to Armenians, Assyrians, and Greeks – nil. In July 2004, California allowed descendants of Armenian Genocide victims to settle 2,400 life insurance policies (after WWI, the Turkish government had asked to receive US insurance payments for people Turks had killed)

Victims: 11 million total, Jews (6 million), Poles, Slavs, disabled, etc.

Perpetrators: German Nazis

Nazi leaders: Adolf Hitler and other German commanders such as: Heinrich Himmler, Reinhard Heydrich, Otto Eichmann, Hermann Göring

Recognised by: almost universal recognition

Shamefully denied by: some Middle Eastern governments, including Iran and Syria

Theft: Nazi bank theft estimated to be US\$5.6 billion

Reparation: by Germany to Jews – US\$845 million (1951), US\$125 million (1988), \$US5 billion due to German business involvement in the Holocaust such as the Deutsche Bank (1999), €772 million (2012)
